Newport Daily News.

VOL. XXV--No. 179. NEWPORT, R. I., MONDAY AFTERNOON, JULY 31, 1871. Single Copies Three Cents

The Newport Daily News
IS PUBLISHED BY
DAVIS & PITMAN,
At No. 12 Church Street.
Terms $6,00 Per Annum.

ADVERTISEMENTS will be inserted for $1,00 a square for the first insertion and 25 cts. for each subsequent insertion. Ten lines or less, Nonpareil type, (like this) make a square.

Transient Advertisements must be paid for in advance.

The privilege of yearly advertisers (of all classes) is limited to their own immediate business, in their own name. It does not include Legal Notices, Auction Sales, Lost and Found, Cards, Wants &c. When contracts for yearly advertising are discontinued before the year expires, the publishers will claim the right to charge for the advertising done at the transient rates.

Editorial Notices, or Articles to be inserted in the reading columns will be charged fifty per cent extra, reckoning by the space occupied.

No paper discontinued until arrears are paid, unless at the option of the publishers.

A NEW ERA IN WASHING
Labor, Time, Clothes and Fuel Saved
BY THE USE OF
WARFIELD'S
COLD WATER SELF-WASHING SOAP!
This SOAP washes the finest as well as coarser fabrics, in cold, warm, hard, soft or salt water, without boiling or machinery, and is guaranteed not to injure clothes in the least when used according to the directions.
One good washerwoman can do more and better washing with it than two can do in the same time with the best machines, using the ordinary soaps in market.
By using it, you get rid of the annoyance of hot water in summer, and of steam in the house (so productive of colds) in winter.
For Sale by Grocers generally.

ESTABLISHED 1857.
500,000 PEOPLE
Throughout the United States & Canadas,
HAVE USED
DR. J. MILLER'S
SOOTHING & HEALING
BALSAM,
And cheerfully recommend it to the public as being the Best Family Medicine in the world for all internal and external complaints for which it is recommended. It is fast gaining popular favor, and has already reached extensive sales. All we ask, in order to convince the most skeptical of the powerful efficacy of this great remedy, is the trial of one bottle, costing only 50 cents, and you will never be without it or hesitate to recommend it to your friends. Sold by druggists everywhere. Every bottle used according to directions is warranted to cure, or money refunded.
The proprietors CHALLENGE THE WORLD to produce its superior as a remedy. Testimonials received daily in reference to the astonishing cures it has performed. It is used and recommended by prominent physicians throughout the country.
It has proved infallible for Burns, Scalds, Frozen Limbs, Bruises, Sprains, Wounds of all kinds, Pains in the side, back or shoulders, Piles, Corns, Chilblains, Chapped Hands, Stiff Neck, Ague in the face or breast, Ear Ache, Deafness, Loss of Motion of Limbs, Poisoning, Erysipelas, Inflammation of the Eyes, Inflamed Irritation of the Skin. For Rheumatism it is not a certain cure, yet hundreds have been relieved by it when other remedies had failed.
AS AN INTERNAL MEDICINE, when taken in season, it will cure Croup, Hoarseness, Sore Throat, Dry Cough, Asthma, Whooping Cough, Canker in the Mouth, Sore Lips, Inflammation of the Bowels, Dysentery, Kidney Complaints and Cholera Morbus.
THE "BALSAM" has also given great relief in many cases of Diphtheria.
No person need fear to use this medicine, as it is purely vegetable in its composition. It is soothing and healing in its influence, and may be given to any age or sex with perfect safety.

CHEAP FARMS! FREE TRAVEL!
Chicago, Rock Island, and Pacific Railroad Company.
600,000 Acres
CHOICE IOWA LANDS.
This Company is now offering for sale about six hundred thousand acres of the finest agricultural lands in the West. The Company sells only to actual settlers, and the prices are exceedingly reasonable, ranging from $5 to $15 per acre—the average being about $8. The greater part of these lands are situated along the line of its railroad between the cities of Des Moines and Council Bluffs, and are in the most accessible and fertile region in the State.
Sales made for cash or on credit long enough to enable any industrious man to pay for the land out of its crops.
These lands are held under a title direct from the General Government, and are not mortgaged or encumbered in any way. Full warranty deeds given to purchasers.
For maps, pamphlets, or any other information respecting them, address EBENEZER COOK, Land Commissioner, Davenport, Iowa.
EXPLORING TICKETS are sold at the Company's ticket offices at Chicago, and all other principal stations on its line, and if the purchaser buys land the amount paid for the ticket is applied on the purchase money.

TO CONSUMPTIVES!
Fifteen years' successful experience proves beyond the possibility of a doubt, that by the prompt and timely use of
WINCHESTER'S
HYPOPHOSPHITES
OF LIME AND SODA,
EVERY CASE OF
Consumption can be Cured.
CONSUMPTIVES! INVALIDS! do not fail to give this celebrated Remedy an immediate trial. You will be charmed and surprised at its prompt and beneficial effects. Price One Dollar per bottle. Sold by all druggists.

TARRANT'S
SELTZER
APERIENT.
Under a Burning Sun, where Bilious affections and Fevers of various descriptions so generally prevail,
Tarrant's Effervescent Seltzer Aperient.
Has been successful beyond all parallel. Hence the physicians of the tropics give it their emphatic sanction, prescribing it in preference to every other aperient in use. The patients, of course, gladly acquiesce, for this preparation is one of the most delightful, as well as mild and cooling cathartics, chemistry has yet devised, and possesses every medicinal virtue of the far-famed German Seltzer Spa. It is a powder that only requires the addition of water to produce in an instant a delicious, effervescent beverage, as well as an invaluable medicine.
Ask for and accept none but the genuine.
SOLD BY ALL DRUGGISTS.

Summer Layering.

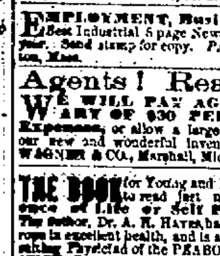

To the amateur, who has not the facilities for propagating plants in any other manner layering is the simplest method of multiplying his shrubs and vines. It is not sufficiently expeditious for the nurseryman, and it is too wasteful of material, as he could make a dozen plants from cuttings of the material required to make one layer. In private gardens, we wish to increase the stock moderately, either to obtain a few plants for our own use, or to present to friends, and to do this, layering answers admirably. Even the nurseryman is obliged to resort to this method with plants that cannot be propagated in any other way. The operation is of the simplest. We have only to bend down the shoot and bury a portion in the earth, and in most cases it will be found well rooted by autumn, and it may be severed from the parent plant, and removed at that time, or be left until the following spring. There are a few points necessary to be observed. The wood of the shoot, should be partially ripened or hardened before it is layered. In most cases the rooting is much facilitated by cutting a tongue in the portion to be layered. This tongue should be made upon the upper side of the stem. It is simply a cut from below upward, an inch or two long, and extending about half way through the stem. In bending the shoot down, care should be taken not to break it at the cut point. The soil should be mellow and rich and a little trench being opened, the shoot, including the cut portion, laid in it, and fastened down with a hooked peg. The earth is then replaced and pressed down firmly, and the upper end of the shoot, which projects above ground, is to be tied up to a stake; this will give a better shape to the new plant than if it were allowed to take a reclined position. Want of success in summer layering is due to the ground around the layer becoming too dry to allow the formation of roots. This may be remedied by placing a mulch of moss or other material over the surface. A flat stone laid upon the soil over the layer answers an admirable purpose. [*American Agriculturist.*

Fight them with Books.

A very pious lady in a town in Illinois, not many years ago, was pondering how she could be most useful in promoting the spiritual welfare of the people. She finally settled upon this plan: To purchase with her own money a carefully selected library of interesting and appropriate books, and lend them gratuitously to such persons as she could induce to read them. She was not wealthy, but she had just received a small sum of money as her portion of her recently deceased mother's estate. A portion of this money was expended for the library of religious books. This proved to be quite as profitable an investment, financially considered, as many a less considerate Christian has put into silver-mining or petroleum stocks. The books obtained, she visits from house to house, calls the attention of a lady friend to such a book as she considers most suitable to her present spiritual condition, and leaves it with her to read. The entire field was gradually cultivated by this kind of judicious labor, and well covered with the seed of books. Never obtrusive, never giving offence, cautiously and kindly feeling her way to the sanctuary of the heart, she worked on patiently, like the secret agencies of nature, with little noise, and no pretension, until, after weeks of delay, the signs of hopeful promise appeared. The result was that, with other laborers in the field, a powerful and wide-spread reformation swept over and through the town, in which many nearly hopeless cases were happily and thoroughly converted to God.—*Temperance Advocate.*

The following Americans are in the service of the Khedive of Egypt: General W. W. Loring is a brigadier-general commanding a division, and is commandant of the city of Alexandria; General C. P. Stone is chief of the staff of the general army, with the rank of brigadier-general; General T. P. Motte is chief of staff of the Viceroy's staff, with the rank of major-general; General Libbey is chief of artillery, with the rank of brigadier-general; Colonel Sparrow Purdy, of California, is colonel of engineers; Colonel Thomas Chett, of South Carolina, is chief of ordinance, and is now building large powder-works at Cairo; Mr. McComb Mason is a major in the artillery; and besides officers, General Reynolds and his son, Colonel Frank Reynolds, hold commissions under the Khedive; also, Colonel James M. Morgan, of South Carolina, now on leave in New York, who is captain on the staff, with the rank of lieutenant-colonel.

We were amused the other day at a lady friend's account of the manner in which her Irish servant girl mended her stockings. When a hole appeared in the toe, Bridget tied a string around the stocking below the aperture and cut off the projecting portion. This operation was repeated as often as necessary, each time pulling the stocking down a little, until at last it was nearly all cut away, when Bridget sewed on new legs, and thus kept her stockings in repair!

NEWPORT DAILY NEWS.

MONDAY July 35, 1871.

Morning News.

John Slidell, of the Mason and Slidell fame, is dead.

President Grant is about to return to Washington.

Above one hundred persons were killed and wounded by the boiler explosion of the Staten Island Ferry boat yesterday.

The President has appointed Judge Frazer of Indiana commissioner, on the part of the United States, of the Treaty of Washington, and the British government have appointed Mr. Gurney, the recorder of the city of London, as its commissioner.

The lord mayor of London gave a ministerial banquet on Saturday afternoon, and conciliatory addresses were made by Gen. Schenck, Mr. Gladstone and others.

A train of nine cars was precipitated from a railroad bridge into the Navasota River, in Texas on Saturday night. Seven lives were lost.

Terrible Accidents.

The morning papers come to us with crowded columns of sickening details of railroad and steamboat disasters and consequent loss of life. A Staten Island ferry boat, loaded with passengers, was about starting from her dock, Sunday afternoon, when the boiler exploded and three hundred people were blown into the air or plunged in an instant into the waters. The telegraphic dispatches attempt a description but such horrors are too great to be depicted in words. We can only imagine the terror of the scene when hundreds of human beings are in the agonies of death or the torture of broken limbs and scalded bodies. The heart sickens at the thought, and yet our highest conceptions must come far short of the reality.

Another dispatch brings us tidings of a railroad accident in Texas, where a train is thrown into the river by the giving way of a bridge, and nearly a score are killed or seriously maimed.

These terrors are only equaled by the accounts of the KuKlux outrages in South Carolina, where fiends, in human shape, inflict equal horrors on the helpless negroes. Surely the morning papers furnish a sad picture of accidents and crimes.

Political.

A Pennsylvania paper says the democratic party, at the present moment, reminds it of a wasp—very nearly in two pieces, with the larger piece at the rear.

Information from California indicates that the prospects of the republicans for carrying the state elections next fall are very hopeful. Sargent is sure of re-election to congress, and Senator Cole's re-election is also anticipated.

A correspondent who has travelled extensively in the South, put this statement on record: "The men in the South are largely willing to accept the situation, but I don't think you will find a new departure lady democrat in the whole length and breadth of the land. Any way, Mr. Davis is cheered in his sorrowful old age by the charming adulation of a choice coterie of Memphis beauties: 'How are you, Mr. President?' sigh they, with respectful look and subdued voice. 'For you are our president, you know.' That is a touching and interesting conversation, which I am told upon reliable authority transpires almost every day in Memphis."

Presidential Vacations.

The following little scraps of history are worth noting. They serve to shed some light on the wanderings of our late Presidents. The seaside recreations of Gen. Grant are not a "new departure": John Quincy Adams was a close and careful administrator of his office, but he took his little vacations. In 1825 he was absent from Washington thirty four days. In 1826, called home by the death of his father, he was absent two months. In 1837 he was absent from August 1st to October 15th. In 1828 he was away from the Capital five weeks.

Gen. Jackson, in 1829, the year of his inauguration, was absent from the Capital ten or fifteen days. In 1830 he left Washington late in June, went to Tennessee, and returned at the end of September. His absence was some ninety days. In 1831 his absence was for a fortnight. In 1832 he went again to the Hermitage, and was gone from the last week of July to the 19th of October. This was the year of the great campaign against Clay. In 1833 he made his famous Northern tour, which occupied nearly six weeks. On this tour he was dubbed LL. D. at Cambridge. Another week he and "Old Blair" spent at the Rip Raps. In 1834 he visited the Hermitage early in July, departing from the Hermitage on the 20th of September. His absence covered about three months. In 1835 he was at the Rip Raps from the 6th of July to the 17 of August. In 1836 his absence in Tennessee covered some ten weeks.

Growth of Providence.

The Providence Journal of Saturday says: The growth of Providence appears to be more rapid and substantial now than it has ever before. It will well repay one, who is not familiar with the appearance of the suburbs, to walk through them, and see the building that is going on, upon all sides. Nor is the real growth of Providence confined to its corporate limits. The neighboring towns, the large manufacturing establishments, of which Providence is the centre of trade, and many of which are built up with Providence capital, and equally increasing in population and wealth. With the introduction of water, the pleasant city will take a fresh start in the race of prosperity.

The Portland Press estimates that the hay crop will not fall off from that of last year more than 25 per cent. It says that efforts are made by interested parties to keep up and raise the price by cries of a short crop and a consequent scarcity. The editor has taken some pains to ascertain the precise condition of the crop in his vicinity and in some other parts of the State, by conversation with farmers and others practically acquainted with the facts; and the result of his inquiries is that on well kept land the decrease is from 10 to 20 per cent., while in few instances have the figures reached so low as 50 per cent.; and then only on old, worn out land with thin soil. Owners of horses and cattle may now take courage.

Items.

Mrs. Amy Franks, a Pennsylvania woman of ninety years, has 500 living descendants.

The unsightly wooden telegraph poles in New York are to be replaced by iron ones.

The prices of improved farms in California are lower than they were three years ago.

Work on the building for the New York Art Museum in Central Park will soon be begun.

The Hollywood ghost has been sentenced to three months imprisonment in the Richmond jail.

"The Battle of Dorking" has produced a large brood of imitations.

A Pennsylvania music teacher fell from a third story window and found the pitch uncomfortably high.

The Adventists in Maine held a tent meeting, beginning July 6th, and continuing afternoons and evenings for eleven days.

Corcoran, the Washington banker, is nearly recovered and is with his family at the White Sulphur Springs, Va.

Prof. Huxley compares the form in which women at present dress as a candle extinguisher upside down, and calls it "physically monstrous."

Saratogians are beginning to find out that each one can have the mineral spring water in his own house by boring about 95 feet.

Secretaries Boutwell, Belknap and Delano and Attorney General Akerman are in Washington. The other members of the Cabinet are expected there in a few days.

A saw mill is the last gift accepted by Mr. Grant. It may be handy to have it in the house when he gets bored.

Two thousand four hundred corsets for male Love-laces are said to be imported annually into the United States.

Of 36,800 pupils in the New York public schools who have been vaccinated, not one, it is said, has taken the small pox.

A few drops of carbolic acid sprinkled about a room will drive out the flies and mosquitoes which are so annoying at this season, and no great annoyance will ensue to the human occupants.

About fifteen druggists and druggists clerks are daily "interviewed" as to their knowledge of the business by the Druggists' Commission in New York. The trade generally dislike the ordeal, and are protesting against it.

One thousand dollars in gold is carried by the mail from New York to San Francisco for $3.75, while by express it cost $12.50. The Government makes $50,000 a year out of the gold mail transportation.

J. Russell Young arrived in New York from Liverpool on Wednesday evening.

Rumor hath it that Mr. Charles Nordhoff has taken a position on the New York Times.

John W. Fietback, wounded in the raid on the 12th, died at Bellevue hospital, New York, yesterday.

Longfellow is invited to preside at the festival of the London, England, Literary Fund society next year.

Summer Gossip.

Anne Dickinson is at Atlantic city.

The Profile house, at the White mountains, was crowded with guests last week.

The allowance of ladies at the summer resorts is about twenty five to one man, which, as every sensible man knows, is just twenty-four too many.

Children not allowed in this room unaccompanied by their parents, is a sign displayed conspicuously on the drawing room door of one of the seaside hotels.

The tide of travel is setting Vineyardward strongly. Accommodations are ample, and bluefish in abundance are cruising in our waters ready to bite at the opportunity for terra firma.

Hops have commenced at the principal hotels in Saratoga, and are well attended.—The afternoon concerts on the lawn are very popular; they attract delightful listeners from all parts of the country.

The survey of the harbor at Martha's Vineyard is progressing favorably. The adjourned town meeting on August 12th, will probably determine the matter of an opening through the South Beach.

The International hotel, Niagara Falls, is designated by hackmen and others the 'Bride's Retreat,' from the fact that it is a great rendezvous for newly married persons.

Secretary Fish is still at his home on the Hudson river. His assistant, Mr. J. C. B. Davis, has been making him a visit. It is said that Mr. Fish will accompany the President on his proposed visit to California.

Cape May has a genuine sensation; a crazy young man of great wealth and elevated social position. Many of our wealthy young men, as soon as they get 'elevated' go crazy, but create no special sensation. A fine of $5 at the Commissioners office usually restores them to their senses.

Editors' excursions to summer resorts are becoming quite popular. The Vermont association visited the Equinox house, Manchester, in June; the New York association, the Grand Union Hotel, Saratoga, soon after. The New England association have just visited St. Albans, Montreal, Lake Memphremagog etc., and the New Jersey association, Cape May. A party of New York editors are on the way to San Francisco, on a pleasure excursion and the Wisconsin association is going somewhere else.

The late news from Prussia that the Government has decided to break openly with the clericals, and to resist any attempts of the prelates, who adhere to the infallibility dogma to persecute Catholic priests who do not believe in the validity of the resolutions passed by the late Ecumenical Council, possesses considerable significance. The Catholics have gone so far as to ask the dismissal of college professors who refuse to teach the infallibility dogma in their religious lessons. The abolition of the separate ministerial department for Catholic affairs by Bismarck will cause much commotion in the Catholic ranks. The leading prelates of the Empire will, undoubtedly, resist the Government step by step. The religious feeling in Germany was exhibited on a recent occasion in a marked manner. Professor Zenger, a prominent 'heretic' who died a few weeks ago was followed to his grave by twenty thousand persons, and in the evening the students of Munich marched to his grave in solemn procession. Troublesome times may be looked for in Fatherland.

About Home.

Fine weather once more, and somewhat warm.

A nice assortment of dry goods—at the Station house. A variety may be found there to suit the most fastidious.

The engine connected with the fog signal at Beaver Tail Light Station broke down about 12 o'clock on Saturday night. Repairs will be made immediately. A fog horn will be sounded at intervals until the repairs are completed.

We are indebted to W. P. Clarke for the little pamphlet entitled "What happened after the Battle of Dorking" which is a sequel to that ingenious article which has created so much of a sensation among all classes in England.

An exchange says: As Narragansett Pier and Newport grow in popularity as summer resorts, so does Poppasquash Point attract ever new admirers of its facilities and advantages as a camping ground. The Slocum Light Guards intend to make it their temporary abiding place in the first part of September.

JUDGE BLATCHFORD, of the Circuit Court of the United States for the district of New York, will hold a special hearing tomorrow morning, at eleven o'clock, in the Representatives Chamber of the State house.

MORE THIEVING.—It seems that just before those boys made that onslaught upon Mr. Moses, for which they were sent to the Reform School, they stole some thirty dollars from George Bower and a smaller sum from W. K. Delaney. They were suspected of the crime but nothing could be proved against them, till a few days since they confessed the whole thing.

SUDDEN DEATH.—A notice will be found in another column of the sudden death of Miss Hattie E. Coggeshall of Middletown. This young lady was in the city on Saturday where she called on some of her friends in about her usual health. She returned home, was taken suddenly ill and died on Sunday. A large circle of friends will feel keenly the loss of one to whom they felt bound by the strong ties of sympathy and love.

PREPARATIONS FOR HARVARD UNIVERSITY. In drawing attention to Dr. Humphreys' advertisement, we think it right to state, for the information of strangers, that we have before us proofs of the very high testimony borne to his abilities and success in preparing students for Harvard, both in former years, and at the last June examination, by the Dean of Faculty, and by other Professors. There is no doubt that, in all his teachings, whether of younger pupils in the morning school, or of those more advanced, by private tuition, Dr. Humphrey's is very sound, faithful and successful.

INTOXICATED.—Drunkenness seems to be very prevalent just now. Yesterday we saw quite a crowd gathered at a street corner to keep guard over the slumbers of one inebriated individual who had taken the rough brick of the sidewalk for his bed.

This morning an individual with too much "sail" on, was seen making his way towards the Station House, walking first on one side of the street, then on the other.—When he appeared near the building and was about to go past, an officer took him in charge and the next thing the man knew in regard to himself he was under lock and key.

AN INVENTION TO KEEP OUT THIEVES.—A good lady of this city, who has a great dread of robbers, has invented, what she conceived to be, a safe thief trap, which consists of tin pans and other household articles so hung up that the slightest touch would knock them down and raise a noise so as to rouse the house. At times has this trap worked so well as to spring and alarm the sleepers when there was no cause for alarm. The other night the trap was set as usual to catch said thief, if he should put in his appearance. Lo, and behold! he did make his appearance, and the next morning the tin pans were missing and the house left unguarded. What are we coming too, if robbers are so bold as to steal the traps, set for their detection!

A WHOLESALE THIEF.—A curious case of thieving has just come to light in this city. For several weeks past houses have been entered and goods taken, some things of value and some things of no value whatever. Last Thursday night the house of Mrs. Pell was entered and eatables and some other things of little value taken. The next night Mr. R. M. Hunt's residence was served the same way. This time eatables and clothing were taken. Suspicion now rested on one Mrs. Joseph Thurston living at the corner of Spring and Barney streets, and Captain Hammond set a watch upon her house. Saturday night Captain Hammond kept guard himself. At a late hour the suspected thief emerged from her house and started on her tour of plunder. No one followed, but after a while she returned bearing the spoils, which happened to be one old fly-screen. She was at once arrested. Capt. Hammond and officer Beaumont procured a warrant and searched the house. The result was abundance of spoil was found. A partial inventory we give for the benefit of those who have been the sufferers:

2 umbrellas, 100 yards oil carpeting, 100 yards carpet, Brussels, and Ingrain, 2 carriage robes, 6 shawls, 1 carriage mat, large lot of ladies underwear and children's clothes, 1 set carpenters tools, 1 smoked ham, 3 clothes lines, 1 keg of pork, 1 basket, Large lot of bath towels, Large lot of long towels, Canned meats and fruit, 1 elegant child's dress, 5 carriage shamois, 8 lace window curtains, Large lot table linen, 1 shawl strap, 2 sun umbrellas, 1 pair gaiter boots, ½ doz. bottles of wine, 1 silver syrup pitcher, 2 pairs slippers, 1 syringe, 1 mustard spoon marked "H," 1 old silver goblet "L. L. E." 1 roll curtain cord, 3 brushes, 1 pair rubbers, 1 pocket handkerchief with monogram "O. H," 1 napkin monogram "O. C. H." 1 piece enamelled leather 1 piece silk velvet, 1 ladies riding whip, 1 pair fancy slippers, 1 water proof cloak, 5 apron, 6 ladies dresses, 1 pair bed blankets, several pair pillow cases, 1 pocket handkerchief marked in monogram "M. R. H." 2 shirts, 1 cloth vest marked "J. Newton," 1 basket of keys and locks, 1 dog collar, 2 bottles of whiskey, 1 box stockings, 8 rugs, 1 lot carriage linings, 1 cake box.

In addition to these articles which are at the station house, we are informed by the police that there are still larger quantities at the residence of the accused which will soon be transferred to Market Square. This lot includes a great variety of tin-ware, crockery, wooden ware, garden tools, dry goods, groceries and fancy articles of every sort. To say the least the collection is worth looking at.

Tiverton.

Seven cottages erected on Tiverton Heights are almost ready for occupancy.—Philander Smith, of Taunton, is erecting, about half a mile north of the Stone Bridge and near the railroad depot, a restaurant and dining hall, in which clam bakes are to be served during the Summer, a la Rocky Point.

A Correspondent of the Transcript writes as follows of this place:

A rainy day by the seashore is often considered a bore by the croquet hat, slippers and costume, but to the mother with her needle and quiet thoughts it is a breathing time, as it were; for the bright days which have prevailed this summer rush by so fast that August comes before we think that July has gone, then the troubles of September suddenly appear, with the inevitable "getting ready" for winter. What a pity that the two most beautiful seasons, spring and fall, should be lost upon the senses and become nothing but bores, with the dress-making and shopping and refitting and carpet shaking. Oh for the days when the nine children in the family used to have a calico and a delaine apiece, and one white muslin for the parties, with different colored ribbons for a change! But we must confess that our butterflies are the sweetest, loveliest things, and perhaps they are worth the trouble. Who would imagine that in this quiet place the spirit of speculation runs riot? From Fall River, all down the bay to Little Compton, opposite Newport, the land has doubled and trebled in value during the last five years, and now the farmers are beginning to hold their own very closely, especially the sites near the water.

Gentleman from Boston and other cities are finding exquisite localities, and Mr. Bateman, who was so wise in Newport forethought is doing the same thing here, "laying in stock." It is hard to choose between the ocean and the closer bay views. The latter are different from any other place, with their miniature islands, peninsulas, capes and bays lying all about in calm beauty, while there is a distant opening of ocean. There is no surf to bathe in along these shores, but quiet swimming waters are everywhere.—There are very few boarding houses, but Mr. Lawton has a fine hotel at the Stone Bridge for those who can afford big prices. Besides the rise in land, the people have been making money by catching great hauls of manhaden (?) fish which are ground up for their value in machinery oil, and the refuse enriches the land, so that neat houses are dotting the landscape here and there, instead of the fisherman's hut of other days. But alas for the olfactories where the oil factories reign. The air is tainted around for acres, and one scarcely would know where to choose between city gas works and a Tiverton oil factory for a residence; both make nuisances because the owners thereof will not use the proper chemicals which would obviate the difficulty and let the air do its perfect work.

Fall River.

The News says another new mill has been projected, to be built east of Eight Rod Way, and somewhere near the foot of Warren street. The names of Messrs. Augustus Chace, Cook Bordon, John P. Slade, J. M. & T. B. Earle, and others, are mentioned in connection with the enterprise.

Major Brown and Mr. Briggs, chief engineer of the water works, have left for Columbus, Ohio, to look into the Holly system of water works in operation there. They will probably visit other places West, for the same purpose, before their return.

Bristol.

The Phoenix says Dr. J. C. Gallop, while at work in his garden, a few days ago, found a well preserved Spanish silver coin, formerly quite common in this country, representing its value six and a quarter cents, and known as a 'four pence ha' penny,' bearing date 1800.

A convention of the Young Men's Christian Associations of this State will be held in Bristol, commencing about the 20th of October next. It is expected that five or more delegates from each of the Associations in Rhode Island, and two delegates each from the churches in the State will be present, together with a large number of visitors.

[For the News.]

Professional Gardening.

As we watch the rapid growth of Newport, drive over the newly opened avenues and admire the houses which each year adds to swell our city's size, and admire new and old lawns shaded with trees and decked with flowers, we wonder that some gentleman, or the proprietors of contiguous estates, do not imitate the example set by other cities and call to their aid men of the best professional skill. It is true that our shore is beautiful and no road can be so badly located but that the dwellings which grow up beside it must have attractions commending them to purchasers; but when we recall work we have seen, estates and villages as they have been laid out by skilled persons, we see that the novice and the amateur can rarely equal professional skill. Our attention has lately been called to this at Oak Bluffs, Martha's Vineyard, laid out by R. M. Copeland, the landscape gardener of Boston, author of Country life. This village was created by his plans out of a mere moor, and growth of scrub oaks. Mr. Copeland has shown his skill in hundreds of country places, cemeteries, and public grounds, and is now busy laying out a town of 500 acres on the new line of the Phila. and Balt. R. R. and twelve miles south of Philadelphia.

He proposes to make several very large ponds, almost lakes, one of them being 1-2 a mile long, and adds to the beauty of the water extensive parks, and pleasure grounds. Nearly one half of the land will be used by the public, but the remainder will be so much increased in value by the improvements, that half will be many times better than the whole. Of one thing we are sure, that, however well an amateur may lay his lands into village lots, or may treat his private grounds, a man like Mr. Copeland can do vastly more with less money and time, and produce more satisfactory results. We wonder that our work has been done by men but little known to the country, and that men of wide spread reputation are not called here to add all that their skill can give to the beauty and attractiveness of our delightful town.

The art of the landscape gardener can give us just what we lack, local and home beauty of the most attractive kind even in winter, when we must confess that the sea, though ever beautiful or grand, has less attraction than in Summer. ***

We understand that a most elegant lot of Turkish Carpets have just arrived per steamer, consigned to Mrs. Schulter, 16 Central Wharf, Boston, and are now on exhibition, and for sale at wholesale prices, in Store on Bellevue Avenue, opposite Bath Road.

[For the News.]

Excursion.

The John J. Blair Association, a number of gentlemen from New York, started on the schooner Hannah S. Brown from that city on Saturday evening, July 29, for a trip along the Sound. They visit the American Club, by invitation of Wm. M. Tweed, on Monday, and expect to be here for a few hours during the week. The Association is named after one of the New York city Fire Commissioners. The members are all dressed in naval uniform, ornamented with buttons bearing the monogram of the Association. About forty members, besides the crew, stewards, barber and waiters, are on the schooner and they have had a splendid time so far. If the weather is favorable, they will cruise about for two weeks before returning to New York. Their larder is well supplied with provisions, and three tons of ice were placed in a temporary ice house on board the Schooner in order to prevent the meats from spoiling. The whole cost of the trip is about $2,500. As they are gentlemen, we bespeak for them a respectful recognition when they arrive. Fire Commissioner Blair accompanies the party as a guest. B.

A Perilous Season.

Glorious and delightful as the Summer weather is, its tropical heat is a severe trial to the vital powers. Even the strongest are sometimes prostrated by its effects. The common phrase applied to this condition of the body is "general debility." Now, general debility arises from, and includes a variety of ailments. The liver is more or less affected, the bowels are either constipated or too much relaxed, the stomach but half performs the work of digestion, the appetite is poor, and the spirits depressed. This is what is called general debility. It is a general disarrangement of all the physical functions, and requires as a remedy a medicine that will regulate them all. Hostetter's Stomach Bitters is specially adapted to this purpose. Its general operation is not confined to a single organ. If the liver is affected, it restores its tone. If the stomach is torpid, it regenerates it. If the nerves are tremulous and weak, it braces and reinforces them. If the mind, which ever sympathizes with the body, is gloomy and despondent, it relieves the difficulty, and soon brings the whole mechanism of the body into harmony with the laws of health.

There is no civilized nation in the Western Hemisphere in which the utility of Hostetter's Stomach Bitters as a tonic, corrective, and anti-bilious medicine, is not known and appreciated. Throughout the Tropics it is considered, both by the people and the profession, the standard specific. While it is a medicine for all seasons and all climates, it is especially suited to the complaints generated by the weather, being the purest and best vegetable stimulant in the world.

Beware of the Bitters made of acrid and dangerous materials, which unscrupulous parties are endeavoring to foist upon the people. Their name is legion, and the public has no guarantee that they are not poisonous. Adhere to the tried remedy, Hostetter's Bitters, sold only in glass, and never in kegs or barrels.

DR. BARKER, the Chiropodist, has taken an office conveniently located near the Ocean House, where, all who are so unfortunate as to be troubled with the painful excrescences known as corns, in whatever variety, will find that Dr. Barker, for delicacy of touch in dissecting them, and skill in ameliorating and curing them entirely, is unsurpassed by any chiropodist who has visited Newport, and we can honestly advise all afflicted ones to give him a call.

MANIOCA! MANIOCA!—The great East Indian delicacy. Puddings, blanc mange, &c., are so delicious when made from HILL'S EAST INDIAN MANIOCA, that it is welcomed at every table. It is the most nutritious vegetable production yet discovered, and is nature's greatest blessing to invalids. One package makes six delicious puddings for 25 cents. Sold by all grocers. Prepared only by the MANIOCA COMPANY, 287 Washington street, New York. jy29

DIED.

In Middletown, July 30th, Harriet Emma, daughter of Aaron S. and the late Ann Maria Coggeshall, in the 21st year of her age.

Henry H. Fay's

School for Boys.

Cor. Cottage and Catherine Streets.

The Summer session of this school, now in its eighteenth year, commenced May 8th, and continues until October 1st, 1871.

Boys from seven to eighteen years of age are admitted as day scholars at any time and instructed thoroughly in all branches necessary to a preparation for College or Commercial pursuits. Pupils now preparing for Harvard, will enter in July and September and others will follow in 1872. A class will enter the Yale Scientific School in September.

Private lessons upon reasonable terms can be given at the school, or at the residences of pupils.

Mr. Fay respectfully refers to his past and present patrons among the permanent and Summer Residents of Newport.

For particulars address personally or by letter

Consumption,

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

Dr. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here, then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room, until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet: they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of, and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since."

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them: First, create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation, while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic $1.50, a bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists and dealers.

NEW ADVERTISEMENTS.

ACADEMY OF MUSIC.

THE FIRST LECTURE on Scientific Travels in Southern Russia, Persia, China and Africa, will take place on

Thursday, Aug. 2d, 1871,

At 8 o'clock, P. M., in the

Academy of Music.

DR. W. J. DAVIS, late Professor in the University of St. Petersburg and a former traveling companion of Dr. Livingstone in Africa, will present in this lecture some interesting and lively sketches of the life customs and manners of the half-savage-inhabitants of Central Asia and Africa.

☞ Tickets One Dollar each, to be had at the Redwood Library. jy31

Preparation for Harvard University,

— BY —

E. R. HUMPHREYS, LL. D.

Master of R. I. University School, Newport, Author of various Classical Works, &c.

DR. HUMPHREYS continues to read with private pupils for HARVARD UNIVERSITY, and for OXFORD.

For testimony to the success with which he has, up to the last examination, prepared pupils for HARVARD, he is permitted to refer most fully to PROFESSOR G. M. LANE, PROFESSOR W. W. GOODWIN, (both now in Newport), PROFESSOR GURNEY, DEAN OF FACULTY, and PROFESSOR BOWEN.

The Morning School Classes for junior pupils are now open, and pupils are received monthly.

DR. HUMPHREYS can be seen every day from 11 to 2 o'clock.

Six Boarding-pupils, under fifteen years, and of strictly eligible character and disposition, can be received.

Reference is also made to these gentlemen now in Newport:

Rev. I. P. White, D. D., Rector of Trinity Church.
Rev. E. M. P. Wells, D. D. (of Boston).
Rev. T. Logan Murphy, Rector of Zion Church.
Rev. G. C. Hill, Rector of Emmanuel Church.
Rev. C. T. Brooks.

BOILER EXPLOSION ON A STATEN ISLAND FERRY BOAT.

—

Thirty Four Dead Bodies.

—

OVER ONE HUNDRED WOUNDED, A MAJORITY OF WHOM WILL DIE.

—

NEW YORK, July 30.

As the Staten Island boat, "Westfield" was starting from her dock at the foot of Whitehall street, next the Battery, at half-past one o'clock, this afternoon, with a heavy load composed mainly of the usual class of Sunday excursionists, to the number of about 300, her boiler burst, blowing the upper works of the boat into a thousand pieces and laying open the whole forward part of the hulk from the very keel.

The spectacle on the ill-fated vessel, subsequent to the explosion, is beyond description. A great yawning abyss stretched from abaft the shaft to the stern, and opened like a sepulchre to swallow its load of precious human freight in the dark hold beneath. The dead and dying were lying about in every direction among the *debris* of broken timbers, splinters and heavy machinery. From amidships to the cut water, the boat presents a vast hold filled with fragments of spars, beams, flooring and bulwarks and fragments of iron.

How many bodies still lay beneath the ruins in that fearful hold it is impossible as yet to tell. They are bringing them out every hour. Many persons, as in the case of Professor March Chemvlere, of Brooklyn, were blown bodily into the air, falling into the water. Some have been hauled out by the boatmen with hooks and otherwise, and a large party are now engaged in dragging the bottom constantly finding bodies.

The explosion was terrific. John Magee, pilot, was thrown from the forward pilot house twenty feet into the air, falling on the boat and escaping without a scratch. John Freeland was captain of the boat and Harry Robinson engineer. The latter is colored, and the indignation of the passengers against him is tremendous, though his friends claim he is not to blame. The boiler was inspected by John H. Mathews, United States boiler inspector, on the 15th of June and pronounced safe. Robinson, the engineer of the Westfield, states that he tried the cocks in the boiler a few minutes before the explosion, and found water at the upper cock. He states further, that at time he looked at the steam gauge and there were twenty-seven pounds of steam on his boiler; also that the steam was blowing off at the safety valve, showing that the boiler was carrying the full extent allowed by the certificate.

The cause of the explosion was probably the breaking of the joints of the plate with which the boiler had been patched. In the rear end the huge black smoke of the steamboat lay like a monster serpent over an entire family whom it had striken in its fall. A number of the victims were past any chance of recovery, and their death was only a question of minutes or an hour at the most. One of the saddest and most affecting sights in the search for the injured, was the discovery of several little children and infants whose tender limbs and bodies were bruised in the most horrible manner. Of course those were nearly all dead.

The excitement on Staten Island is beyond belief. At every ferry are crowds of women and children looking out for missing ones, among whom are many of the most prominent Staten Islanders.

The Westfield is a very old boat, but has been refitted of late, but passengers to Staten Island say it has been unfit for passenger boat for some time past. During the war it was purchased by the United States Government and used as a transport, and when the war closed came into the possession of the Staten Island Ferry Company.—The Westfield did not contain as many passengers as on her previous trip, as the explosion occurred at a time of day when there are not a very large number of passengers.

THE DEAD.

NEW YORK, July 31, midnight.

The total number of killed foots up at this hour, thirty one, of whom only Pofessor March Chemlvere, of Brooklyn, John J. Beck, 302 Tenth avenue, John J. Johnson, 305 Fulton street, Brooklyn, Matilda Moffat, 454 Ninth avenue, Nellie Grooms Flatbush, Louise L. and George Lassas, of 71 First avenue, have been identified. Of the unknown dead now in the hospitals and station houses waiting to be identified, 12 are men six women and six boys and girls,—the girls generally under twelve years of age.

THE WOUNDED.

The number of seriously wounded, whose names and residences have been ascertained, is about seventy, and the number of those, less seriously injured, who were removed and cared for by friends, is over thirty. None of the officers or employes of the Westfield, thus far, are reported among the sufferers.

Mayor Carroll, Alderman Levi Phillipson, and the Chief Fire Engineer, Rockle, all of Syracuse, were on board the Westfield, and were all slightly injured, nothing serious.

The boats of the revenue cutter, Northerner, did great service in rescueing persons from drowning. Among the victims of the catastrophe is Antonio Mecci, partner of Garibaldi in his candle factory on Staten Island.—The poor fellow is shockingly bruised, and cannot move a muscle without the greatest agony. He was borne to his residence by his friends when his physician pronounced his injuries undoubtedly fatal. Mecci sacrificed all his wealth in the Garibaldi movement, and succoring the poor Italian emigrants who came to this country.

He is one of Garibaldi's intimate friends and advisers. He was a man of great ingenuity, and has secured seventeen different patents for improvements in candle making machinery, and had an elaborate system of a speaking tube telegraph, by which he proposed to enable antipodal nations to converse together.

THE LATEST.

NEW YORK, July 31, 1:30 A. M.

In the Bellevue hospital, at twelve o'clock, there were twenty-four bodies in coffins, and ten on slabs, all presenting the appearance of having been frightfully scalded, large patches of skin being torn off in many places. Since nine o'clock there have died in the hospital, Fanny Randall, of Sixth avenue; Margaret Caroline, a child two years of age.

FUNERAL OF EX-MAYOR BRONSON.

—

SAN FRANCISCO, July 29.

No new trouble has been reported at the Amador mine. Bennett who fired the shot which killed McMemeny, is in San Francisco, and the Leaguers have taken out a warrant for his arrest on a charge of murder. As the Leaguers attempted to murder him before and after the shooting, Bennett will, fearing he may lynched, endeavor to avoid arrest.

British gunboat Sparrowhawk arrived to-day from Victoria.

The Democracy of San Francisco is divided into three parties on local nominations, but will probably compromise and unite. The Republicans are preparing for the largest meeting this evening ever held on the Pacific Coast.

The funeral of late Mayor J. F. Bronson takes place tomorrow and will be an imposing affair. The whole Second Brigade has been ordered to parade.

jy30 **L. D. DAVIS, Agent.**

A PRIVATE TUTOR can be obtained for the summer, by applying to

C. R. HAMMETT, Jr.
jy27-6t* 124 Thames street.

NEWPORT DAILY NEWS

In the summer of 1845 when Bismarck being then 27 years old, was on duty as a cavalry officer, he was standing with the other officers on a bridge near a lake, when his groom, Hilderbrand, the son of the forester on his estate, rode a horse for a bath in the lake close by the bridge. Suddenly the horse lost his footing, and Hilderbrand disappeared in the water. Bismarck threw off his sword in an instant, tore off his uniform, and dashed headlong into the lake to save his servant. He seized him, but the drowning man clung to him so fast that he had to dive before he could free himself. Bubbles rose over the spot, and master and servant were given up by the spectators as lost; but the powerful swimmer had succeeded in releasing himself, and he arose to the surface, bearing up with him and bringing to land his inanimate burden. The rescued man, however, shortly recovered, and for the brave action Bismarck obtained a simple medallion—the well known Prussian safety medal—which may occasionally be seen beside the many stars on his breast. He is proud of this mark of honor, and it is said that on one occasion a noble diplomatist asked him the meaning of this little modest decoration. "I am," he replied, "in the habit sometimes of saving a man's life."

REAL ESTATE.

Hazard, Ford & Co.

HAIR TEA.

A lady writes: "About six months ago my hair was coming out so badly that at every dressing I used to get a handful, which, not wishing to throw away, I laid by in a box. I have two bottles of your Hair Tea, and now I do not get enough to tie the ends of my braids, and have to use the box for a few hairs for that purpose. I think every lady ought to know what a remarkable Hair Preserver you make."

Dr. Kennedy's Hair Tea, a complete Toilet Article to beautify and invigorate the hair, is sold by Druggists everywhere at $1.00 per bottle.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

No. 76 State st., opp. Kilby St. Boston.

AFTER an extensive practice of upwards of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments, and all papers for Patents, executed on reasonable terms, with dispatch. Researches made to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or ascertaining the patentability of inventions.

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse.
CHARLES MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."

"Mr. R. H. Eddy has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

Boston, Jan. 1, 1871.—1yr.

$500 WILL BE FORFEITED BY DR. L. DIX if failing to cure in less time than any other physician, more effectually and permanently, with less restraint from occupation or fear of exposure to all weather, with safe and pleasant medicines.

SELF-ABUSE AND SOLITARY HABITS,
Their effects and consequences;
SPECIAL AILMENTS AND SITUATIONS
Incident to Married and Single Ladies
SECRET AND DELICATE DISORDERS;

Mercurial Affections, Eruptions and all Diseases of the Skin; Ulcers of the Nose, Throat and Body; Pimples on the Face; Swellings of the Joints; Nervousness; Constitutional and other Weaknesses in Youth, and the more advanced, at all ages, of
BOTH SEXES, SINGLE OR MARRIED.
DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 21 Endicott Street, Boston, Mass.,
is so arranged that patients never see or hear each other. Recollect the ONLY entrance to his Office is No. 21, having no connection with his residence, consequently no family interruption, so that on no account can any person hesitate applying at his office.
DR. DIX
boldly asserts (and it cannot be contradicted except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he
is the only regular graduate physician advertising in Boston.
TWENTY YEARS
engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to
Strangers and Travelers.

To avoid and escape Imposition of Foreign and Native Quacks, more numerous in Boston than other large cities.
DR. L. DIX
proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, because of his acknowledged skill and reputation, attained through so long experience, practice and observation.
AFFLICTED AND UNFORTUNATE!
be not robbed and add to your sufferings in being deceived by the lying boasts, misrepresentations, false promises and pretensions of
FOREIGN AND NATIVE QUACKS,
who know little of the nature and character of Special Diseases, and LESS as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and advertising in names of those inserted in the Diplomas, but to further their imposition assume names of other most celebrated Physicians long since dead. Neither be deceived by
QUACK NOSTRUM MAKERS,
through false certificates and references, and recommendations of their medicines BY THE DEAD, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.
IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon MERCURY, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so-called Extracts, Specific, Antidote, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, ALAS! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years until relieved or cured, if possible, by competent physicians.
BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving mercury to their patients or that it is contained in their Nostrums, so that the "usual fee" may be obtained for professedly curing, or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is thus that many are deceived also, and uselessly spend large amounts for experiments with quackery.
DR. L. DIX'S
charges are very moderate. Communications sacredly confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

Medicines sent by Mail and Express to all parts of the United States.

All letters requiring advice must contain one dollar to insure an answer.

Address Dr. L. Dix, No. 21 Endicott Street, Boston, Mass.
dec31—3taw—1year.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all ladies who need a Medical or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargements of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

No. 21 Endicott Street, Boston.

Letters requiring advice must contain one dollar to ensure an answer. 1an1—3taw—1y

JURUBEBA.

Is a South American plant that has been used for many years by the medical faculty of those countries with wonderful efficacy, and is a Sure and Perfect Remedy for all Diseases of the
LIVER AND SPLEEN, ENLARGEMENT OR OBSTRUCTION OF INTESTINES, URINARY, UTERINE, OR ABDOMINAL ORGANS, POVERTY OR A WANT OF BLOOD, INTERMITTENT OR REMITTENT FEVERS, INFLAMMATION OF THE LIVER, DROPSY, SLUGGISH CIRCULATION OF THE BLOOD, ABSCESSES, TUMORS, JAUNDICE, SCROFULA, DYSPEPSIA, AGUE AND FEVER OR THEIR CONCOMITANTS.

Dr. WELLS' EXTRACT of JURUBEBA

is a most perfect alterative, and is offered to the public as a great invigorator and remedy for all impurities of the blood, or for organic weakness with their attendant evils. For the foregoing complaints

Dr. Wells' Extract of Jurubeba

is confidently recommended to every family as a household remedy, and should be freely taken in all derangements of the system.

It is NOT A PHYSIC—It is NOT what is popularly called a BITTERS, nor is it intended as such: but is simply a powerful alterative giving health, vigor and tone to all the vital forces, and animates and fortifies all weak and lymphatic temperaments.

NEW YORK STATE

RAILROAD BONDS,

A First-Class Home Investment.

FIRST MORTGAGE GOLD BONDS

OF

Rondout & Oswego Railroad,

PRINCIPAL AND INTEREST

PAYABLE IN GOLD.

Seven per Cent. per Annum—Payable Semi-Annually,

This Road is 100 miles of the most direct possible line between the Great Lakes and deep-water navigation on the Hudson River, the whole line of which will be completed and in operation on or before Oct. 1, 1872, and give a new line of road to Lake Ontario and the West, twenty-five miles shorter than any line that can be found.

The issue of bonds is limited to $20,000 per mile of COMPLETED ROAD, the coupons payable in gold in this City. Price of the Bonds, 90 in currency, and accrued interest.

THE

New Orleans, Mobile and Texas

RAILROAD COMPANY

Are building a first-class railroad, from Mobile, Alabama, to Houston, Texas, a distance of 475 miles. The stockholders have paid in, and already expended upon the work, nearly TEN MILLION DOLLARS, and two-thirds of the entire road has been built. It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means, before offering any of its securities to the public.

Among the leading stockholders are HON. E. D. MORGAN, HON. JOHN A. GRISWOLD, MESSRS. MORTON, BLISS & CO., J. & W. SELIGMAN & CO., L. VON HOFFMAN & CO., JAMES H. BANKER, HARRISON DURKEE, JOHN STEWARD, and other well known capitalists.

The Company now offer for sale the

Eight Per Cent Mortgage Bonds.

upon that part of the line west of the Mississippi River which is considered so important to Louisiana that state aid, to the amount of $3,500,000, has been granted or guaranteed to the enterprise.

The Bonds are of two classes:

FIRST MORTGAGE BONDS,

to the amount of $12,500 per mile, and

SECOND MORTGAGE BONDS.

to an equal amount, the principal and interest of the latter being guaranteed by the State of Louisiana.—The price of the two classes is the same, and subscribers can take their choice.

The Bonds are only in the denomination of $1,000 or £200 each, interest payable January and July, at the rates of eight per cent. currency in New York, or seven per cent. gold in London, at the option of the holder, at the time each coupon is due. Bonds can be registered if desired.

One thousand dollars invested in these eight per cent. bonds will give the purchaser MORE THAN SEVENTY SEVEN PER CENT. greater annual interest than the same amount invested in the new Government Five Per Cents.

These Bonds are offered for the present at 90, and accrued interest at 8 per cent. currency from July 1 to date of remittance.

The fullest information given on application.

W. B. SHATTUCK, Banker
AND
Financial Agent, N. O., M & T. R. R. Co.,

First Mortgage Joint Bond

OF

THREE NEW ENGLAND RAILROAD COMPANIES,

(PRINCIPAL AND INTEREST PAYABLE IN GOLD), COMPRISING THE

VERMONT DIVISION

OF THE

PORTLAND & OGDENSBURG TRUNK R. R. LINE,

CONNECTING

The Lakes and the Atlantic by Much the Shortest Route.

THIS ROAD is being built and managed by New England BUSINESS MEN, who have invested largely in the CAPITAL STOCK, and whose experience and reputation guarantee the most THOROUGH CONSTRUCTION of the Road, and at the same time insure the most HONORABLE CONDUCT of ITS AFFAIRS.

The Road is so situated as to secure to itself AT ONCE the largest PLEASURE TRAVEL OF ANY RAILROAD IN THE EASTERN STATES, connecting, as it will by the shortest route, SARATOGA, LAKES GEORGE AND CHAMPLAIN with MT. MANSFIELD, LAKES MEMPHREMAGOG and WILLOUGHBY, and the WHITE MOUNTAINS. Independent of the through freight and passenger traffic, which must at once flow to it upon its completion, in consequence of its being the SHORTEST ROUTE to the sea-board, the earnings from the LOCAL BUSINESS will be sufficient to pay all running expenses and the interest on its SMALL BONDED DEBT.

Cash subscriptions, to the STOCK of the Road, have already been made nearly sufficient to complete the Road ready for the iron. The bonds are coupon or registered, and are in denominations of

$1,000, $500, and $100.

The interest is SIX PER CENT IN GOLD, payable semi-annually, in Boston, May 1 and November 1. These Bonds are offered until further notice at 90 and accrued interest in currency, and we recommend them to savings banks, holders of trust funds and all others having money to invest as FIRST-CLASS SECURITIES.

For further information—Pamphlets, Maps, &c.,—Apply to

Court of Probate, City of Newport, July 10, 1871.

GEORGE W. TAYLOR, of Newport, presents to this Court an instrument in writing, purporting to be the last Will and Testament of WILLIAM SMITH, late of the city of Newport, deceased, and in writing prays that the same may be proved, allowed and recorded, and that Letters Testamentary on the estate of the deceased may be granted to him, the Executor named in said Will.

The same is received and is referred to Monday the 31st day of July instant, at 10 o'clock, A. M., at the Probate Office in the City Hall in Newport, for consideration. It is ordered that notice thereof be published, for fourteen days, once a week, in the Newport Daily News.
